ABOUT ME

Software Developer and full stack developer Developer with 3+ years of experience in building web applications, internal portals, workflow automation, and system integrations. Skilled in developing practical business solutions using web technologies, Power Automate, SharePoint, Teams, NetSuite, APIs, and automation tools. Strong ability to convert business requirements into clear digital workflows, user-friendly interfaces, technical documentation, and reliable internal systems.

WORK EXPERIENCE

Specialized Industrial Services Co. LTD (SISCO), Al Khobar, Dammam **Oct 2024 – Present**

Software Developer / Content Developer

- Developed and supported internal portals, digital forms, approval workflows, and automation processes across HR, Finance, Procurement, and IT departments.
- Worked on business applications by converting department requirements into practical technical solutions, structured workflows, and user-friendly processes.
- Improved UI/UX content, form labels, page layouts, workflow messages, and system instructions to make internal applications clearer and easier to use.
- Created user guides, training manuals, IT awareness content, and process documentation to support employees and improve system adoption.
- Collaborated with cross-functional teams to understand business needs, document processes, and deliver clear implementation-ready requirements.
- Supported digital transformation initiatives by preparing workflows, documentation, and content for internal tools, automations, and business applications.

Winmount Services, Karnataka, India **May 2023 – Aug 2024**

Full Stack Developer

- Developed and maintained full-stack web applications with front-end and back-end functionality.
- Built dashboards, authentication modules, APIs, and workflow features for internal users.
- Integrated external APIs to automate business tasks and improve system functionality.
- Improved application performance, code quality, deployment stability, and technical documentation.

Interny Internships , Hyderabad-India **Mar 2022 – Apr 2023**

Front-End Developer

- Developed responsive web pages using HTML, CSS, JavaScript, and React.
- Created UI components, forms, and interactive elements for student-facing platforms.
- Ensured mobile responsiveness, cross-browser compatibility, and clean layout structure.
- Supported debugging, website updates, and front-end documentation.

KEY PROJECTS

Employee Intranet Portal

Developed an internal employee communication portal for announcements, company updates, events, emergency contacts, quick links, and employee engagement. Improved centralized communication and provided employees with easy access to important internal information.

Supplier Portal & Procurement Workflow Integration

Developed and maintained a supplier interaction portal integrated with procurement workflows, improving supplier communication, document submission, RFQ visibility, and approval tracking.

ERP Procurement & Analytics Dashboard

Developed a UI-based interactive ERP dashboard using NetSuite Suitelet, saved searches, and API integrations to display real-time procurement, RFQ, approval, and purchase order insights. Built dynamic filters, KPI tiles, charts, and reporting views to help users track RFQ lead times, buyer performance, PO status, and procurement activity more efficiently.

API-Based PDF & Email Automation

Developed automated workflows for PDF generation and email delivery using APIs, webhooks, and workflow automation tools. Reduced manual document handling and improved internal communication efficiency.

Employee Payslip Portal

Built a secure employee self-service portal for accessing and downloading payslips, reducing HR manual workload and improving employee accessibility.

SKILLS

Web & Application Development

HTML, CSS, JavaScript, React.js, Node.js, Python, ASP.NET Basics, WordPress Customization, Front-End Development, Back-End Logic, Form Development, Portal Development, Internal Business Applications.

Database & Data Handling

MySQL, PostgreSQL, MongoDB, Data Validation, Data Mapping, Form Data Storage, Report Data Structuring, Error Handling, Debugging, Data Flow Management.

ERP, NetSuite & SuiteScript

NetSuite ERP, Suitelet Development, Saved Searches, Custom Records, Custom Fields, Client Scripts, User Event Scripts, Workflow Automation, KPI Dashboards, Procurement Reports, RFQ Tracking, Purchase Order Reporting, Approval Flow Enhancements.

UI-Based Dashboard Development

Interactive ERP Dashboards, Dynamic Filters, KPI Tiles, Charts, Data Tables, Real-Time Reporting Views, User-Friendly Layouts, Responsive Dashboard Design, Business Data Visualization, Procurement Analytics, RFQ Performance Tracking.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Jawaharlal Nehru Technological University, Hyderabad India

2018 – 2022 | GPA: 82%
