

MOHAMMED ABDUL RAZZAK OWAIS

Software Developer | Full Stack Developer | Digital Transformation & Automation

owaisrak28@gmail.com | +966 56 134 0729 | Al Khobar, Saudi Arabia | [linkedin.com/in/razzakowais](https://www.linkedin.com/in/razzakowais) | [Portfolio](#)

SUMMARY

Software Developer and Full Stack Developer with 4+ years of experience across the full software development lifecycle (SDLC), building web applications, internal portals, workflow automations, ERP dashboards, and system integrations. Hands-on expertise with ASP.NET, Blazor, C#, JavaScript, React.js, Node.js, Express.js, Python, SQL, Power Automate, Microsoft Power Platform, NetSuite, SuiteScript, REST APIs, and WordPress. Skilled at translating business requirements across HR, Finance, Procurement, HSE, and IT into reliable, user-focused digital solutions, technical documentation, and streamlined workflows.

TECHNICAL SKILLS

Web & Application Development: HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, Python, ASP.NET, Blazor, C#, Flutter, WordPress, responsive web design, front-end development, back-end development, forms, internal portals, web application development

Automation & Microsoft Power Platform: Power Automate, Power Apps, Microsoft 365, SharePoint, Microsoft Teams, Microsoft Graph, Azure AD / Entra ID, approval workflows, digital forms, workflow automation, PDF automation, email automation, Microsoft Power Platform

ERP, NetSuite & SuiteScript: NetSuite ERP, Suitelet development, SuiteScript, Saved Searches, Custom Records, Custom Fields, Client Scripts, User Event Scripts, REST API integration, OAuth 1.0a, KPI dashboards, procurement reporting, RFQ tracking, purchase-order reporting, workflow enhancements

APIs, Integration & Data: REST APIs, RESTful web services, webhooks, system integration, data mapping, data validation, SQL Server, MySQL, PostgreSQL, MongoDB, Supabase, JSON, error handling, debugging, API development

DevOps & Tools: Git, GitHub, GitHub Actions, CI/CD, Docker, Visual Studio, VS Code, Postman, IIS, Azure, PowerShell, Microsoft Intune, UiPath

Business & Delivery Skills: Requirements gathering, business-process analysis, Agile methodology, SDLC, digital transformation, UI/UX improvement, dashboard development, technical documentation, user guides, training materials, cross-functional collaboration

CERTIFICATIONS

- Agentic AI Certified Foundations Associate — Oracle NetSuite, Aug 2026 | ID: 330585144AAI26OFA
- NetSuite Certified AI Foundations Associate — Oracle NetSuite, Aug 2026 | ID: 330585144N16765GC10
- AI Training Hackathon — KANZ AI / LAU ACE, Jul 2026 | ID: KANZ-ATT-8D2E73B2C2
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate — Oracle University, Aug 2025 | ID: 102175838OCI25AICFA
- Artificial Intelligence Fundamentals — IBM SkillsBuild, Jul 2025

EXPERIENCE

Software Developer / Content Developer — Specialized Industrial Services Co. Ltd. (SISCO), Al Khobar, Saudi Arabia
Oct 2024 – Present

Internal Platforms & Digital Solutions

- Develop and maintain internal portals, web applications, digital forms, and user-facing workflows for HR, Finance, Procurement, HSE, and IT departments using ASP.NET/Blazor, C#, WordPress, JavaScript, and SQL Server.
- Translate business requirements into implementation-ready technical solutions, structured workflows, and user-friendly interfaces across cross-functional teams.
- Improve UI/UX of internal applications by refining form layouts, page structure, workflow messaging, and interface content to enhance usability and adoption.

Automation & Integration

- Design and deploy approval, PDF-generation, email-delivery, QR-verification, and data-processing automations using Power Automate, REST APIs, webhooks, and Microsoft Power Platform tools.
- Implement Azure AD / Entra ID and Microsoft Graph integrations for authentication and organisational-data workflows, applying data validation, mapping, and error-handling practices.

ERP, NetSuite & Analytics

- Build NetSuite Suitelet dashboards, Saved Search reports, KPI tiles, charts, and dynamic filters for procurement analytics, RFQ tracking, buyer-performance, and purchase-order reporting.
- Develop and enhance NetSuite Custom Records, Custom Fields, Client Scripts, User Event Scripts, and approval workflows using SuiteScript and OAuth 1.0a REST API integration.

Full Stack Developer — Winmount Services, Karnataka, India

May 2023 – Aug 2024

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and REST APIs with responsive front-end interfaces and reliable back-end functionality.
- Built dashboards, authentication modules, database-connected forms, and workflow features for internal and external users using PostgreSQL, MongoDB, and MySQL.
- Integrated third-party REST APIs to automate business processes and extend application functionality; implemented error handling, data validation, and debugging best practices.
- Improved application performance, code quality, CI/CD deployment stability, and technical documentation across the full software development lifecycle (SDLC).

Front-End Developer — Interny Internships, Hyderabad, India

Mar 2022 – Apr 2023

- Developed responsive web pages and reusable UI components using HTML5, CSS3, JavaScript, and React.js for student-facing web platforms.
- Created forms, navigation components, layouts, and interactive features; ensured cross-browser compatibility, mobile responsiveness, and WCAG accessibility standards.
- Collaborated with designers to convert mockups into functional interfaces; supported debugging, version control with Git/GitHub, and Agile sprint-based delivery cycles.

SELECTED PROJECTS

Company Hub — Employee Intranet Portal (SISCO)

- Built a secure internal portal for company announcements, events, employee highlights, HR policies, emergency contacts, and Microsoft Entra ID profiles with Teams push notifications.
- Stack: ASP.NET Core, Blazor, C#, Microsoft Graph, Azure AD / Entra ID, SQL Server, IIS, Azure.

ERP Procurement & Analytics Dashboard (SISCO)

- Developed an interactive NetSuite Suitelet dashboard with Saved Searches, KPI tiles, charts, dynamic filters, and reporting views for RFQ lead times, buyer performance, and PO status.
- Stack: NetSuite, SuiteScript, Saved Searches, SuiteAnalytics, JavaScript.

Visitor Management Portal & QR Verification (SISCO)

- End-to-end visitor workflow: registration, host approval, unique visitor-ID and QR-code generation, security-desk verification, check-in/exit tracking, and automated email notifications.
- Stack: WordPress, Fluent Forms, Power Automate, SharePoint, QR APIs, JavaScript.

Supplier Portal & Procurement Workflow (SISCO)

- Developed a supplier-facing portal integrated with NetSuite for document submission, RFQ visibility, purchase-order status, invoice tracking, and supplier communication workflows.
- Stack: WordPress, NetSuite, SuiteScript, REST APIs, Power Automate, JavaScript.

NetSuite & Microsoft Entra ID API Integration (SISCO)

- Architected a secure API-driven integration between NetSuite ERP and Microsoft Entra ID, enabling automated synchronization and reconciliation of employee identity, profile, and organizational data with robust validation, attribute mapping, and exception handling.
- Stack: NetSuite REST APIs, Microsoft Graph API, SuiteScript, OAuth 1.0a, OAuth 2.0, OpenID Connect, JSON, C#, ASP.NET Core.

EDUCATION

Bachelor of Technology, Computer Science and Engineering

2018 – 2022

Jayaprakash Narayan College of Engineering, affiliated with Jawaharlal Nehru Technological University Hyderabad (JNTUH), Mahabubnagar, Telangana, India — GPA: 82%
